## Supply & Installation

1

### **Balcony doors**

Weathertight doors and windows, powder-coated or anodised aluminium for marine environments, designed for cabin balconies and public areas. Options include hinged doors with one or two leaves or sliding doors.

# Our Services

## Supply & Installation

2

### Balcony dividers

Balcony privacy partition featuring either frosted glass for an aesthetically enhanced look that ensure privacy, or aluminium infill panels for a lightweight, sleek and functional design.

3

### Balustrades & Windscreens

Balcony and public areas balustrades featuring continuous design, featuring safety glass securely held by upper and lower profiles or clamps. The top handrail comes in a variety of shapes and materials to suit different aesthetic and functional needs.

## Supply & Installation

5

### **Glass replacement**

Glazing units, toughened, laminated fire resistant glass. All glass tested with ISO 614 or relevant marine certificated.

6

### **Glazing wall**

Continuous glazing solutions designed with various systems and surface finishes, tailored for restaurants, bars, and other public spaces. Available options include fire-rated certified products for enhanced safety.

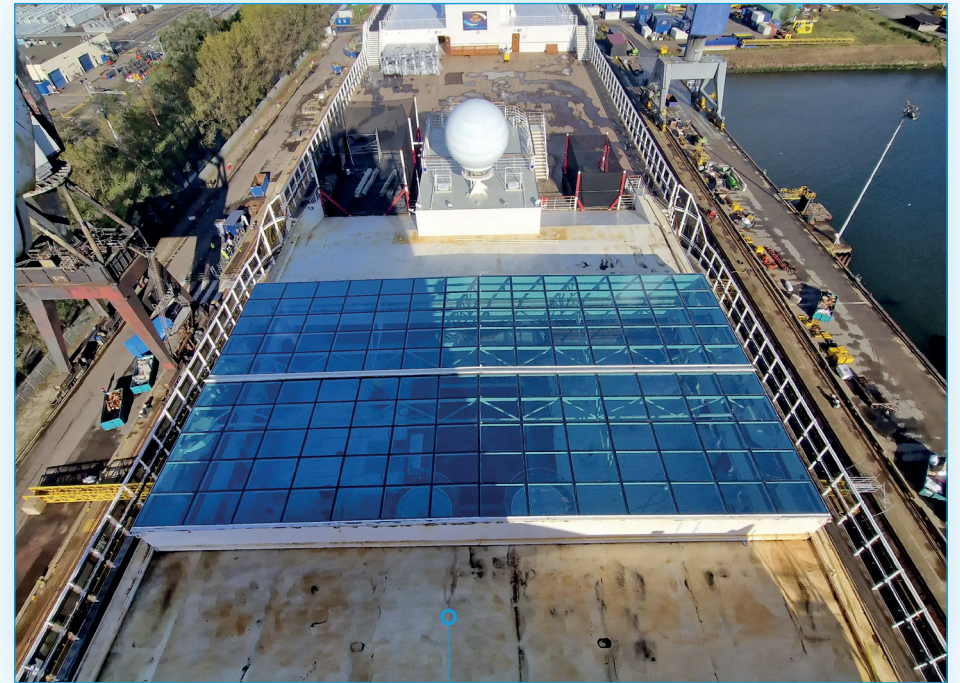

# Our Services

## Supply & Installation

7

### Magrodome

Glazing roof project refurbishment, including glass panes replacement, steel treatment with new mechanical fixing and sealant to ensure water tightness.

# Our Services

---

## Maintenance & Refurbishment

8

### Balcony door renovation

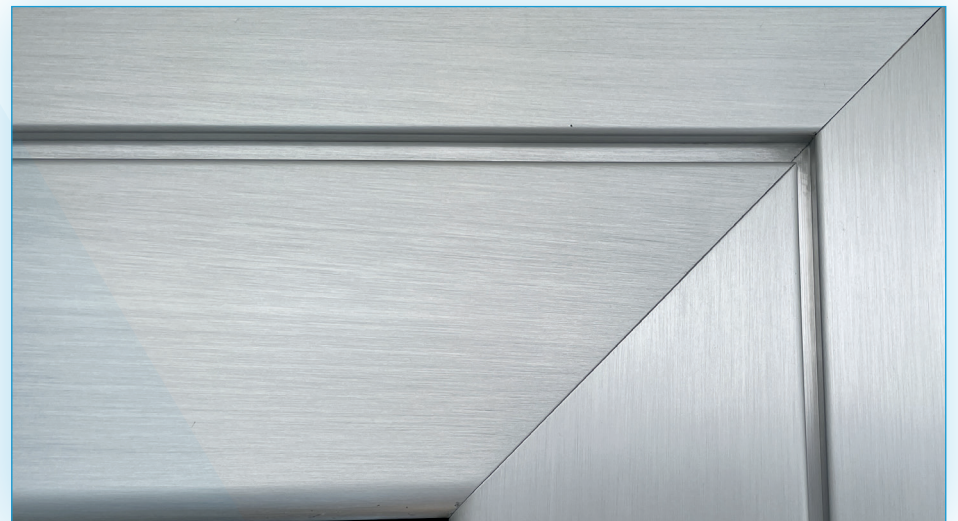

Restoration and aesthetic improvement: mechanical removal of salt stains and oxidation, dullness and micro-scratches.

Improve the brightness of anodised aluminium by applying a revitalising and protective layer which prevents further stains and oxidation.

AFTER THE TREATMENT

BEFORE THE TREATMENT

# Our Services

---

## Maintenance & Refurbishment

9

### **Glass renewal**

Improving glass transparency, removing salt stains sediments by mechanically polishing the glass, applying a non-stick hydrophobic coating to prevent mineral deposits and reduce the frequency of cleaning.
